OUT ON THE LIMB with George Vierhus

TALKING ABOUT TREES in this column somehow seems in keeping with its basic theme.

After all, one has to have a tree first before one can go out on the limb.

With the dedication recently of the stately 20-foot high Douglas Fir at Campbell Park to the memory of Judge John D. Blaine, a Campbell landmark has been established..

And as years go by, we have hopes that the "Blaine Tree" will become more and more important to the community.

-0-

IT WILL BE decorated with lights during the Christmas season, and we visualize the "Blaine Tree" becoming an integral part of community life.

The cost of transplanting the tree from its original location on Dillon Ave. and the casting of the plaque that is at the foot of the tree was borne by Mrs. Paul (Laura) Romer, a daughter of Judge Blaine.

It was a gracious gesture on Mrs. Romer's part, and we welcome this opportunity to pay tribute to her dad who died last October at the age of 91.

-0-

WE WERE VERY fond of Judge Blaine and thoroughly enjoyed our association with him "over the years" which, incidentally, was the name of a column we prevailed upon him to write for the paper shortly after we came to town.

Some of you "constant readers" may also recall that at the same time we had the judge as a columnist we had a nine-year old sports writer, Marvin Moore, as a contributor. Quite a spread in ages, one might say.

We have fond memories of the Judge pedaling on his bike to the office with his weekly column. Judge Blaine even in his '80's' used the bike as his main mode of travel.

-0-

HE ALSO PLAYED tennis for exercise when he could find the time. He had given up golf some years previously as being too slow for him.

But he was a good golfer. We recall we took him out to play a short course with us, and he trounced us with a deadly short game, spotting us 40 years to boot.

Having the "Blaine Tree" in Campbell Park is a fitting tribute to a vigorous individual who had a great zest for life and who played a big part in the 'early days' of Campbell.

We think the Judge would have liked that.

-0-

THAT PLAQUE at the "Blaine Tree" will remind us all that each community, no matter how 'progressive' it becomes, owes something to its heritage.

In this day of furious

Sales tax adds to city's coffers

Campbell's sales tax income soared to a record high in 1965 with $335,397 being allocated to the city based on taxable retail sales within the city limits, according to the State Board of Equalization.

It exceeded the 1964 income by more than $30,000.

What makes the figure even more impressive, however, is that the record was again achieved without any help from sales by automobile agencies within the city limits, rated as one of the biggest sources for sales tax revenue in the state.

In 1965, the total retail sales in Campbell from all sources came to $37,008,000 with a minor $211,000 of this amount coming from the category of "motor vehicle dealers and auto supplies."

During the same year the retail sales in Los Gatos came to $42,-947,000.

Of this amount, "motor vehicle dealers and auto supplies" accounted for $23,-725,000, more than half of the total sales made in our neighboring city!

On the other hand, thanks to such outlets as Breuner's, the total sales listed under "home furnishings and appliance stores", in Campbell totaled $7,-602,000.

In Los Gatos, the same category accounted for only $1,-108,000.

To show again the value of Breuner's to our city, it took 24 outlets for Los Gatos to pick up that $1 million. In Campbell only 11 outlets are listed.

And the same story concerns such mighty city helpmates as Western Gravel, Campbell Lumber and other building material outlets.

In Campbell, 17 such outlets furnished $7,-602,000 of the total sales listed. In Los Gatos, 13 such outlets came up with only $1,-194,000 in sales.

Los Gatos beat the pants off of Campbell in "apparel stores".

Governor's wife to tour area

Mrs. Edmund G. Brown will stop in Campbell next Wednesday morning, May 25, at approximately 11:15 a.m. as part of her inspection tour of the State's beautification program.

Her bus will stop at the Campbell City Park, at which time representatives of the Campbell City Council and the Campbell Garden Club will board the bus and point out Campbell's part in civic beautification. The bus tour will continue on Highway 17 freeway, past the creek to Vasona Park and Recreation Center.

The Campbell contingent will leave the bus at Breuner's, and Mrs. Brown and her entourage will then head to Menlo Park for a luncheon engagement.

Final hearing on fluoridation

The final Public Utility Commission hearing, pertaining to the case of the City of San Jose versus the San Jose Water Works in regards to fluoridation of the water system will be held in the County Supervisor Chambers, 70 W. Hedding St., San Jose on Wednesday, May 25 at 10 a.m. The hearing is open to the public.

Campbell water company to increase rates

The California Public Utilities Commission has authorized Campbell Water Company to increase its rates an average of 38 cents monthly, or 5.4 per cent, based on an average monthly use of 2000 cubic feet of water by a typical residential customer.

The new rates may be made effective on June 1. Only general metered service is affected, with no raises for irrigation, fire protection and miscellaneous services.

Total increase per year in gross revenue was estimated at $41,000, which will enable the utility to earn a 6.8 per cent rate of return.

Campbell Water Company provides service in Campbell, part of San Jose and adjacent territory to approximately 4,000 customers.

There was no protest to the proposed increase at public hearings in Campbell. The company said the sought increase was due entirely to rising costs of operation.

GROUNDBREAKING--Mayor Ralph Doetsch wields the shovel in groundbreaking ceremonies for the second phase of the Campbell Plaza Shopping Center on Winchester Blvd.

Looking on (left to right) are associates Joseph Castello, James Pursley, Police Chief John Morgan, Eugene Kelley of the First National Bank and Renso Orsi. The plans call for a theater and a variety store.

Plaza hits snag; plans not on agenda

Construction of the second phase of the Campbell Plaza Shopping Center on Winchester Blvd. received a costly set back Monday night, when the Planning Commission refused to approve plans on short notice. The error, if there was one, was made by Pursley Construction, who did not have their request for architectural approval on the agenda.

In an eloquent request for a hearing, builder James Pursley apologized for the mistake but said the delay would mean his tenants could not take advantage of the Christmas shopping business. Construction was to start immediately on a theater and a variety store, to be completed by Oct. 1. The Planners said the request would have to wait until their next meeting on June 6.

Both businesses, according to Pursley, would be an asset to the city, which is greatly in need of both. The delay of a month or more in construction would create a hardship, he said. He indicated he couldn't understand why the Planners wouldn't grant a hearing when the first phase had already been approved.

Included in the second phase of Campbell Plaza will be an "inside" theater with a seating capacity of 800. Pursley said the theater would feature "family type" movies, and will be available for civic functions whenever dates would be arranged that did not conflict with the showing of movies. The other building would be a 7,000 sq. ft TG&Y variety store.

NEW RESTAURANT

The Planners did, however, approve the application of Ira Kirkorian for a Smorgasbord Restaurant to be located at 1780 W. Campbell Ave. The plans call for a seating capacity of 300 with 102 parking places in the Kirkwood Plaza Shopping Center.

The application of Steven R. Kagel for approval of a parking lot adjoining the Blendwell Building at 167 E. Campbell Ave. was continued.

Los Gatos man heads local Bank America

DONALD KENNEDY - New Manager

A new manager for Bank of America's Campbell branch has been announced by R. A. Peterson, president.

He is Donald R. Kennedy, former manager of the East Los Gatos Branch.

Kennedy has been associated with Bank of America for 16 years, joining the Oakland branch in 1950. He first attained office in 1956 at the Kingsburg Branch, and later joined BankAmericard operations in San Francisco.

He became assistant manager of the Los Gatos Branch in 1960. He and his wife, Vivian, are parents of a son, Donald, 15, and a daughter, Janet, 11. They reside at 15811 Orange Blossom Dr., Los Gatos.

Kennedy succeeds Ted A. Regas who is joining Central Valley National Bank as assistant vice president and manager.

City officials speak out on board action

Robert Stephens, Campbell's City Manager, expressed disappointment in not being able to convince the Board of Supervisors that a Drive-in Theater located in the heart of a going industrial area would be a detriment to the County.

Stephens comments followed the 4-2 approval by the Board for the Drive-in to be built in the McGlincey Neighborhood, and industrial area for light manufacturing, just off Union Ave. and adjacent to the freeway.

Stephens called it ironic that he has been asked to work on a committee headed by County Executive Howard Campen to study economic development for Santa Clara County and jobs for a depressed area and then to have 14 acres taken out of the best industrial area left in the county. He indicated that the City of Campbell would "follow carefully" related problems to be acted on at the county level.

A Tree Planting.

Campbell enjoyed a peculiar distinction among the high schools of the State during President Roosevelt's visit to the Coast. During his ride through this valley he stopped at Campbell to plant a tree in the name of the high school. At his arrival he was greeted by "America," sung by the children lined up at the corner of Campbell Avenue and Los Gatos and Santa Clara road.

After planting the tree, Mr. Roosevelt turned to the children and said:

"It is a great pleasure to take part in planting this tree in the presence of the children of Campbell. I do not know of anything that bids better for our material well being than the tree culture, and I know of nothing among the many things that the National Grange has done that it has done better than fostering the habit of caring for the forests where they exist and the planting of new trees. And then even above trees come the children, that is the all important part. It is a peculiar pleasure to me to address the children. I have just one word to say to you; it is something I should say to your elders also. I believe in play and I believe in work. I want to see you play hard while you play and when you work do not play at all."

EDITORS NOTE: This is a page from the past, from the Campbell High School Oriole. The year was 1903 when Teddy Roosevelt planted the "Rosy Redwood" on Winchester and Campbell Ave. In those days the Oriole was the high school newspaper. It has since evolved into the Campbell High School yearbook.

Editorial

Creek offers potential

Campbell Clean-up Crusade last month, which emphasized the cleaning up of the banks of Los Gatos Creek and the planting of trees, was an unqualified success.

The creek area, long an eye-sore for the community and especially noticeable to those who travel the freeway through town, was greatly improved in appearance.

Eventually the trees that were planted on the work-day will virtually become a screen which will immeasurably improve the area even more.

The crusade proved also that a cooperative community effort can accomplish a great deal, if the efforts are channelled properly.

That this crusade, culminating with the work-day on Saturday, was the most successful community wide project undertaken here, there can be no doubt.

But what was far important, in our opinion, was that it revealed the potential that the creek offers to the community in so many ways.

Not only did it prove that it would be a practical move to develop the area into a parks and recreational project but it promoted the dream of making the creek-improvement program into an annual event that could be expanded into a communitywide celebration with a parade, prizes, barbecue and the whole bit.

The fiesta spirit could prevail but, at the same time, something worthwhile could come out of it. That is sort of the gist of the dream.

We are optimistic that this could be done because this year's affair was done under a crash-program set-up. Only the surface was scratched as far as getting communitywide participation.

There just wasn't time to contact all the various organizations that have indicated in the past their willingness to participate in such a project.

Now that we realize that the potential is there, it is not too early to organize and plan for next year.

One of the civic leaders who recognized the possibilities of developing such a project into an annual community event is Dick Hardy, president of the Campbell Chamber of Commerce.

At the committee meeting when the results of the first clean-up crusade were reviewed, Hardy pointed out that, if a master plan for the entire creek improvement could be drafted, he felt that many organizations would be willing to take small sections of the creek and improve them according to the plan, that could be part of the organizations's contribution to the betterment of the community.

This is an excellent suggestion. The plan then would be a guideline to follow for the entire area. There is plenty of area to accommodate every organization in the community and then some.

It is even possible that owners of private property along the creek, would cooperate with such a plan.

We think this idea of Dick's could be expanded and developed in many ways.

For example, Boy Scouts, Camp Fire Girls, Girl Scouts, and other teen-age groups might enter into the spirit; they could be assigned certain portions of the creek area and compete for prizes. Judging could be done on the basis of "most improved area", or "that area that most closely follows the master plan".

Work on the plots could be done on a set day, and the day's events could be completed with a community barbecue and other entertainment.

We realize that such an undertaking means that the program would have to be well-organized and planned months ahead. It would also mean that the committee in charge would probably have a back-breaking job, not only in organizing such an event but instilling the necessary enthusiasm into the various segments of the community.

We readily admit that this may be only a dream on our part. Perhaps there are so many problems involved that it would not be worth the effort. Perhaps the cooperation of the various organizations which would be so essential to its success would not be forthcoming.

It could conceivably fall on its face.

But the clean-up crusade last month indicated to us that here was something good that should not be allowed to drop.

We realize that without the cooperation, direction and financial support of the city, very little could have been accomplished. We realize also that the city employees themselves represented a large portion of the workers of the work-day.

We recognize also that by so strongly advocating an annual program for cleaning-up, improving and developing the creek area, we are merely pinpointing the objective we have been harping on for the past 10 years without getting very far.

But a big step has been taken toward the ultimate goal.

We want desperately to see the good work continued that was started this year.

It provides a common denominator for a communitywide effort in which fun, work and civic pride can be mixed together for the benefit of all. These are not bad ingredients in any city, large, small or indifferent.

bull-dozing traditions are often erased in the name of 'progress'.

As you know, these twin walnut trees at the railroad tracks at Harrison and Campbell avenues have become the official landmark of the city.

The Press has appropriated them for its masthead, and the city has designated the trees and the small area around 'em as a city park.

-0-

CAMPBELL JAYCEES have undertaken the project of developing the area into an attractive park with a fountain and other decorative brickwork.

A bench made from the famous Roosevelt Redwood will also be placed in the park with a plaque to explain that it is a chip of the old block.

Southern Pacific has also promised to improve the crossing.

All in all it will be an attractive entranceway into our community.

The Jaycees should be commended for their endeavors, for it is a worthwhile community project in which we all can take pride.

Without detracting from the Jaycees work, we suggest that it would be apropos that a plaque be designed and placed in the park indicating the historical background of the trees themselves.

-0-

THANKS to FRANK BLAINE, son of Judge Blaine, who did some research on the subject, we have learned that those trees are more than 80 years old.

They were planted on what was the original property of Benjamin Campbell, who laid out the town site of Campbell.

Three of old Benjamin's granddaughters helped plant the trees back in 1885.

One of the granddaughters, Mrs. Lena French, now in her 80's, is still active in civic and social affairs in Pacific Grove, according to Frank Blaine, who is her nephew.

One of the other granddaughters who participated as little girls in the tree planting in 1885 was Frank's mother, the Judge's wife, Mrs. Alda Blaine. The other was Mrs. Ethel Davis. Both of them have now passed on.

A plaque at the walnut tree park noting these basic background facts would seem to us a necessary part of the overall picture.

-0-

BUT CAMPBELL'S BID TO FAME, of course, on the tree front will always be the Roosevelt Redwood that was planted by President Theodore Roosevelt on May 11, 1903. It stood for years at the intersection of Campbell and Winchester until it had to be removed last October when the intersection was widened.

But the tree will be remembered because of the bench that has been made from it and more so now because LARRY HILL, high school district superintendent, some years ago removed a burl from it, replanted it in his yard where he nurtured it carefully.

Last week with appropriate ceremonies on the 63rd anniversary of the date when Teddy planted the tree in Campbell, the little burl, now grown into a good-sized young sprout, was planted in the lawn at Campbell High School, almost directly across the street from the location where its parent had stood so majestically for more than 60 years.

If somehow you have received the impression from these meanderings that we have a warm affinity for both trees and traditions, you are right.

We have.

Sales tax revenue

(Continued from page 1)

In Campbell eight such outlets sold $397,000 while in Los Gatos 19 such stores accounted for $1,639,000.

Campbell had 37 service stations in 1965. Their sales came to $874,000. Los Gatos had 31 similar operations and their sales totaled $692,000.

Car-Animal Collisions

NEW YORK—If a car is in a collision with an animal, such as a deer or horse, any financial loss is covered by comprehensive

stores listed in Los Gatos, and their total sales were $1,439,000. Campbell had nine and their sales were $1,-087,000.

Campbell residents evidently have bigger grocery orders than Los Gatos people.

The 15 food stores listed in Campbell during 1965 accounted for $3,144,000 in sales. In Los Gatos the 17 such stores could only come up with $3,030,-000.

But Los Gatos people take home more liquor than do Campbell residents. There were six packaged liquor stores listed in both cities in 1965.

Campbell's six accounted for $932,000 in sales. In Los Gatos the same number rang the cash register for $1,215,000.

Surprising to note, Los Gatos had listed only two more eating and drinking places than Campbell, 33 to 31. But those in Los Gatos picked up $2,705,000 in taxable sales while Campbell's group furnished only $2,084,000.

In the sales tax derby for all the 16 county cities, Campbell with its total income from this source ranked seventh among the cities.

Topping Campbell were San Jose ($5,-674,427); Palo Alto ($1,655,234); Santa Clara ($1,351,628); Mountain View ($1,-025,219); Sunnyvale ($1,037,931); and, of course, Los Gatos ($409,187).

Los Altos followed with $269,923 and then Gilroy ($190,479); Cupertino ($194,832); Milpitas ($148,114); Morgan Hill ($92,298); Saratoga ($70,467).

Monte Sereno was in last place with a grand total of $441 collected from the sales tax in 1965 compared to $719. in 1964.

Los Altos Hills climbed to $10,725 from $8,756 in 1964 but Alviso dropped to $12,235 from $13,818 in 1964.

The figures of the income from sales tax for the cities during 1965 indicated that in the municipalities on the whole business continues to be good.

Incidentally the total sales tax income for the county went up also in 1965 to $2,005,678 from the 1964 total of $1,915,237. Only the city of San Jose's income exceeded the county.

But the review of the sales tax and the outlets indicate the important role that category plays in the fiscal operation of the cities.

It also pinpoints Campbell's plight.

Only six cities exceed this city's sales tax income.

And of the seven leaders, Campbell is the only one without an automobile agency.

Officials speak out

(Continued from page 1)

Mayor Ralph Doetsch's comments are as follows:

"We know now that the Drive-in Theater which the Board of Supervisors just passed on was looked on from a different viewpoint entirely from that of the City of Campbell which indicates there should be a little more communication between the Board and City officials in zoning and land uses.

"The Board of Supervisors in a letter dated April 4, 1966 sent to our City suggested that joint meetings should be held between our City Council and the Board. I'm almost certain if this had been done approximately ten months ago, this permit for the drive-in would never have been issued."

Auto Safety Belts

NEW YORK – Experts estimate that more than 5,000 lives would be saved each year in the United States and that injuries would be reduced by one-third.

Parking lot plans bog down

Members of the Downtown Redevelopment Committee met early this morning for the purpose of discussing the status of the proposed $1.36 million parking district for downtown Campbell.

According to John Faber, chairman of the group, since no real progress had been made in obtaining the necessary 60% affirmative signatures for the proposed off-street parking district, it was now time to consider alternative actions.

City of Campbell budget plans for the 1966-67 fiscal year are now being prepared, with the improvement of Campbell Avenue between Winchester Boulevard and the railway tracks again under consideration. Widening of Campbell Avenue would necessarily have to be a joint program between property owners and the City of Campbell.

Industrial Fatalities

NEW YORK – Factories in the United States were safer than ever in 1964.

ON CAPITOL HILL

with "Charlie" Gubser

A pending bill bearing the innocent title of the "Participation Sales Act of 1966" is a complicated bit of outright deception designed to fool the American public. It is the worst bill I have encountered in my 16 years as a lawmaker.

The Johnson Administration apparently hopes that we who oppose the bill will not be able to explain its complex features in layman's terms. Nevertheless, I shall try.

The Federal government now owns more than $33 billion in loans which it has made to home owners, veterans, Rural Electrification Agencies, and even foreign governments. The advertised purpose of the Participation Sales Act is to allow Uncle Sam to "sell" these assets and attract private money as a replacement for federal money.

But there is a gimmick. Individual loans would not be "sold" and title would not change hands. The Federal National Mortgage Association (FNMA) would only sell "participation certificates" in a pool of loans which contained good, bad, high, and low interest loans. The government would guarantee repayment.

The possibilities for financial skulduggery in this scheme are fantastic!

President Johnson's budget has been advertised as showing a deficit of only $1.8 billion with the contemplated "sale" of $4.2 billion in assets through the Participation Act. Actually, the deficit could be "wiped out" had the Administration played the "shell game" for higher stakes and "sold" an additional $1.8 billion in loans. This is budgetary deception!

The Federal debt limit is established by law and the Administration is always reluctant to ask for an increase. Under the Participation Sales Act, it could avoid increasing the debt by hiding it as an obligation of FNMA. This is deception which circumvents the national debt limit.

By law, the government cannot sell bonds with maturities longer than five years at rates above 4 1/4%. But under this bill the Administration can acquire cash for "selling" loans which it still guarantees at interest rates up to 5 1/2% and for terms as long as 40 years. This is deception which evades the law regulating interest on the national debt.

The bill is wide open so that FNMA could be financing foreign aid, the Post Office, Treasury and other Departments. It would take $2.8 billion of funds away from the home mortgage market which is already short of mortgage money. And if the past practices of FNMA are followed, four big Wall Street investment houses would exclusively handle the business.

This "clubby" arrangement has meant $1.6 billion of business to these four firms in recent years. It could open the way for more transactions like past sales of Small Business loans at a discount to commercial banks for windfall profits (to the banks) of 8 1/2%.

The manner in which the bill was considered breeds suspicion. It was introduced one day and hearings were held the next. No witness was allowed to testify in opposition.

In three hours, over minority objection, it was railroaded through the Banking and Currency Committee on a straight party-line vote. Apparently the Administration believed the legislative maxim. "When you've got a bad bill, wrap it up before anyone gets a good look at it."

Airman Glen Dufur claims Oregon girl as bride

The marriage of Vickie Lynn Choat and Airman Second Class Glen J. Dufur, Jr. was solemnized at Kingsley Air Force Base Chapel in Klamath Falls, Oregon last month.

The attractive bride is the daughter of Mr. and Mrs. W. E. Choat of Ashland, Oregon. Glen is the son of Mr. and Mrs. Glen J. Dufur Sr., of 2069 Anthony Dr., Campbell. A graduate of Campbell High School, he attended West Valley College and enlisted in the U. S. Air Force in 1964.

For her wedding day the bride was attired in a beautiful white lace gown featuring a fitted bodice and a bouffant skirt with four lace ruffles cascading into a chapel length train. Her bouffant veil was held by a satin crown trimmed with pearls. She was given in marriage by her father.

The bride's sister, Rickie Choat, was maid of honor and Phyllis App was bridesmaid. They wore floor-length gowns of white lace over blue nylon. They carried bouquets of blue and white carnations with satin streamers.

James Dickens of Kingsley Field was best man. Ushers were Nicky Choat, brother of the bride, and Gordon Maricle, also of Kingsley Field. The chapel was decorated with baskets of white gladioli, and stock and candelabras. A reception was held in the Air Base Hall after the ceremony. The three-tiered wedding cake was decorated in white and blue.

Following a wedding trip to the Oregon coast, the couple returned to Ashland where the bride will complete her senior year at Ashland High School before moving to Klamath Falls where her husband is stationed at the Air Force Base.

NEW TRENDS IN DECORATING - Mrs. Nellabelle Dickey, west coast editor of House and Garden magazine, was the featured speaker at Breuner's Spring Home Decorating Show, held Monday afternoon in the Campbell store.

Edward E. Hamstreet, Decorator Studio manager, assisted Mrs. Dickey in displaying some of the new fabrics being used for drapes and upholstering.

Homemakers enjoy spring showing at Breuner's

A fashionable audience, interested in new designs and colors in home decorating, turned out to hear Mrs. Nellabelle Dickey, editor of House and Garden Magazine, describe the latest trends in home decorating at Breuner's Monday afternoon.

Mrs. Dickey talked significantly about the bright new colors to be used in appliances which will co-ordinate the color scheme throughout the whole house.

She called "Californians daring," because they are not afraid to use strong colors in their homes. Bamboo was featured as a new accessory design, for wallpaper, and in fabric. Parrot green will be a popular color, she stated, for carpets upholstery fabric and drapes.

She pointed out that furniture will have new flexibility, and be made for more than one use. Mrs. Dickey said that all quality fabrics are now scotchguarded and that Breuner's featured a wide variety of designs.

Following her talk a fashion show was presented by Sandra's Boutique of Saratoga.

Two of the loveliest styles were a hostess gown of persimmon silk organza combined with a floor length skirt of upholstery fabric, and a white wool lace princess style sheath with three quarter length sleeves and a scoop neckline.

WARRIOR OF THE WEEK CARIN CHRISTIANSON

Carin was one of the lucky seniors to travel to Santa Barbara this year to compete in the National Forensic League State Tournament. Although Carin did not get the chance to compete she was first runner up, which is quite an honor in itself.

Carin is taking courses which will enable her to go to college and become an English and language major and someday the famous author that she has always longed to be.

If Carin does not make it as an author she plans to be a type of "girl Friday" to a traveling Diplomat or a translator for an American Embassy abroad.

Carin is a life time member of C.S.F. and A.F.S. and Honor Society. She has been in orchestra four years and has played for Stanford Youth Orchestra and the District Honor band. She has received the third degree in the N.F.L. organization and has a straight A average.

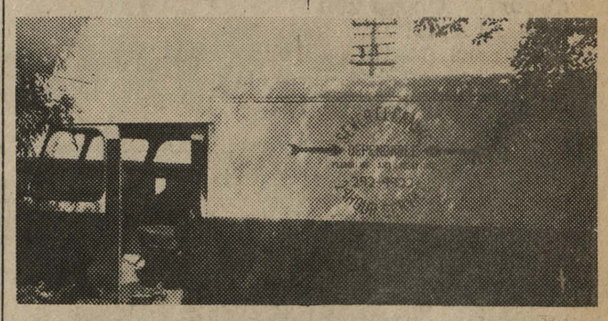
Dependable Plumbing - Heating Inc.



One of Dependable's 24-hour service trucks

When the services of a plumbing or heating specialist are required, it is frequently an emergency and "we'll try to get by in a day or two" won't do. For that reason an increasing number of householders are learning to rely on Dependable Plumbing - Heating.

With headquarters at 2070 Stone Ave. in San Jose, this firm excells in providing courteous prompt relief to the harassed victim of balky plumbing or heating equipment. Whatever the hour, day or night, a call to Dependable at 292-4922 (or 378-9292 if there is no answer) will bring reliable service within a minimum of time. An especially annoying and rather common problem they are ready to take care of with dispatch is sewer and drain cleaning and they also service all makes of water heaters.

L. E. Garcia, owner of Dependable Plumbing - Heating, has built his business on a sound principle of integrity and service to the public. A long time Campbell resident, Mr. Garcia is well and favorably known in our community and has many friends who speak highly of his outstanding qualities of leadership both in business and in the civic life of Santa Clara Valley.

CAMPBELL RADIATOR

Carl S. Pattavina

Of the many firms serving Campbell area motorists, one that stands out for special mention is Campbell Radiator, the only local firm specializing in the care and proper functioning of this all important part of the automobile or truck.

At the Campbell Radiator shop at 2420 Winchester Blvd., owner Carl S. Pattavina has not only the facilities but also the knowledge and experience necessary to guarantee prompt and efficient satisfaction, and thus has won a wide host of friends and customers throughout the area. In addition to repairing, recoring and cleaning old radiators to give many more miles of carefree service, the shop is also a ready source of both new and used radiators for auto, truck and tractor. Mr. Pattavina recognizes that service and convenience are important just as are quality of materials and workmanship and for this reason strives to provide same day service whenever possible and also honors Bankamericard.

We are glad, therefore, to call notice to Campbell Radiator Service and Carl S. Pattavina in this review of those progressive firms and individuals who are contributing to the growth and welfare of the Campbell area.
